BREWERS LOOK FOR NO TROUBLE FROM STRIKE

Believe Men Who Walked Out Will Not Be Violent—Skilled Foremen Here.

Brewers last night declared they had suffered no loss from the strike of the 500 brewery employees who walked out at 4 o'clock Thursday afternoon. The brewers expressed confidence that they will win the strike and asserted that they anticipate no violence.

The brewers have reached an agreement to exchange skilled and experienced workmen in the event that any one of the five local breweries is embarrassed by the strike. They claim they were not in trouble yesterday and stated that "everything ran as smooth as with the old employees."

Skilled foremen from New York have taken charge of the "green" employees, and within a week or two, brewers claim, the new men will have had enough experience to make them as valuable as the men who struck.

40,000 PORTO RICANS STRIKE

Workers in Sugar Fields Demand Raise in Wages.

New York, April 2.—Forty thousand native workers in the sugar fields of Porto Rico, are on strike for increased wages, according to J. C. Billis, chief of the Porto Rican bureau of labor, who arrived here today on the liner Philadelphia. According to Mr. Billis many of the huge fields of cane have been burned by the strikers, who demand an increase in pay of from 50 cents to 1 cent a day. The strike, he said, was in process of adjustment when he left the island.

To War on Night Riders.

Nashville, Tenn., April 2.—On account of the prevalence of night riding in Tennessee the senate today passed the house bill to establish a system of State rangers and to authorize the governor to appoint a constabulary to send into lawless districts.

COLGATE BOYS WILL SING FOR CHARITY

Glee Club Will Appear Here Next Monday Evening in Benefit for Baptist Orphanage.

The Colgate University Glee Club will appear at the Raleigh Hotel next Monday night in an entertainment for the benefit of the Baptist orphanage. The young ladies of the Martha Washington Seminary have agreed to give a dance in honor of the visitors and then to attend the concert in a body. A tour of the city is being arranged for the young men at the expense of some of the local patronesses of the affair.

The proceeds are to be used in furnishing and equipping the first floor of the orphanage in Brookland, which has recently been donated by John B. Lord to the Columbia Association of Baptist Churches. The building itself is in excellent condition and well adapted for the purpose for which it will be employed. However, a large expenditure will be necessary to completely equip it with proper facilities for the care of the infants which it will house. Members of the club who will take part are:

SINGLE TAX WOULD END WARS, SAYS MRS. FELS

Widow Asserts Present System Robs Society by Permitting Cornering of Wealth.

"Taxation at present is robbery," declared Mrs. Joseph Fels, widow of the great single taxer, in an address last night at a meeting at Public Library held under the auspices of the Tax Reform Association and the Woman's Single Tax Club of the District.

"Taxation robs society," she said, "and society is robbing itself by permitting the present situation to continue—by permitting certain persons to corner portions of the earth, which should be free to all men alike."

"There would be no war if the single tax were in effect. The single tax would free industry and would benefit the wage earner."

"The single tax is a state of mind," said Jackson H. Ralston, the presiding officer. "I am glad to know that Mrs. Raymond W. Pullman, superintendent of the police, is a single taxer. He has this 'state of mind' about which I am talking."

Daniel Kiefer, chairman of the Fels Fund Commission, also spoke.

I. C. C. to Give Hearing.

On April 22 the Interstate Commerce Commission will give a hearing under the Panama Canal act concerning the ownership of the Southern Railway, the Chesapeake and Ohio, the Norfolk and Western, the Seaboard Air Line, and the Atlantic Coast Line in the Old Dominion Steamship Company and the Virginia Navigation Company.

Louisville Has \$200,000 Fire.

Louisville, Ky., April 2.—Six firemen were injured early today by falling through a floor while extinguishing flames that did \$200,000 damage in the wholesale district of Louisville. N. M. Utz and Company and H. A. Thierman, whiskey dealers, and the Hardin Hamilton and Lewman Seed Company were the chief losers.

Manager (Griffith) of the National, now plans to carry six parades—Mill, Moeller, Shanks, Acosta, Houdouin and Massey, a young recruit.

BOY SCOUTS WILL DOT CITY WITH TAGS TODAY

People Asked to Greet Youths with Smiles—Rain Will Delay Subscriptions Until April 10.

Announcement was made by Scout Commissioner E. S. Martin at the last night at the event at rain today, Boy Scout "tag day" will be next Saturday, April 10.

The Boy Scouts of Washington today will dot the city from end to end, appealing to passers-by to allow themselves to be tagged, in order to defray the expenses of the organization for the coming year. The least the boys ask, if folks do not feel that they can afford to be tagged, is that they refuse with a smile.

Officials and business men of the city who have taken an active interest in the scout movement, which they regard as one of the greatest movements toward raising better citizens for the future generations, say that nothing so discourages the boys in their efforts to uphold their organization than to be met with a growl by full-grown men.

The boys will have three classes of tags, one for the coat lapel, one for the automobile, and one for the front door. Boy Scouts pay only 25 cents a year as members, depending almost solely upon the annual "tag day" to finance their organization. The infinite value of the movement to the boys has begun to dawn upon the grownups, however, and the boys do not expect to have much of the people of the District to help them in the past.

Yesterday Maj. Pullman, Fire Chief Water and a number of other government officials were tagged by scouts.

SWOBODA CASE SHOWS SIGNS OF COLLAPSE

French May Never Bring Charge of Starting Fire on Ship—American Demands Trucks.

Special Cable to The Washington Herald.

Paris, April 2.—The French and startling developments today indicated a complete collapse of the government's charge that Raymond Swoboda attempted to blow up the La Touraine. His examination was again postponed twenty-four hours and when he is arraigned it is probable that the prosecution will attempt only to show that he is a German and not an American citizen. Evidence that he was responsible for the fire on La Touraine may never be presented.

The government commission which examined La Touraine has decided the fire was not caused by an explosion but by the mysterious ignition of three bales of cloth.

The Petit Journal learns that the real cause of Swoboda's arrest was suspicion on the part of the British government, to which Swoboda had made a certain proposition some time before the ship fire.

MAY PROBE FIRE RISK RATES.

Commissioner Nesbitt Attends White House Conference.

Investigation of local fire insurance rates with a view to placing them upon a more equitable basis, possibly will result from the conference Thursday night at the White House between President Wilson and the District heads.

The presence of Charles F. Nesbitt, District Commissioner of Insurance, at the conference, is believed to be significant. The President took a keen interest in the facts presented by the District officials with respect to the recent advance in insurance rates in the National Capital.

PLAN TWO EASTER WALKS.

Wanderlusts Will Follow Morning and Afternoon Trails.

Wanderlusts of Washington will hit the following trails tomorrow. If the Easter Sunday promenading fever does not cut too deeply into their ranks.

The afternoon band, led by G. A. Gamba will leave Thirty-sixth and M streets northwest at 3 o'clock, following Tunlaw Brook to University Heights, and thence make a short expedition to draw the hikers have been warned not to smoke at this time of the year, as the recent dry spell has rendered the woods easily liable to fire.

EXPECT GERMAN DASH TO SEA.

New York Excited as Ships in Harbor Take on Coal.

New York, April 2.—The New Jersey and South Brooklyn water fronts are kept in a state of feverish excitement today over a renewal of reports that the big fleet of German steamships tied up in the New York harbor were preparing to make a dash to sea.

General German ships were observed coaling, among them the Pias, of the Hamburg-American line and the Barbarossa of the North German Lloyd line. Some professed to believe that the German auxiliary cruiser Prinz Eitel Friedrich was purposely prolonging her stay at Newport News in order to draw the British warships from this vicinity to the Virginia coast.

WANT GOOD CREDIT SYSTEM.

Farm and Labor Organizations Disagree with Plans Outlined.

That the farm organizations and labor unions of the country have formulated definite demands for presentation to Congress on the question of rural and personal credits for farmers, and that these demands will not coincide with the report of the Congressional committee appointed to investigate the question and report when Congress convenes, has been learned.

These organizations are now studying the whole question of credit, not only for farmers, but for small shopkeepers and employers in urban communities as well. Members of these organizations believe a good credit system should be extended all classes of people, and they are endeavoring to frame a bill that can be presented to Congress with a demand that no compromise be considered.
